Every webinar features three key segments: the latest from the Iowa Motor Truck Association, a regulatory update, and an expert presentation on a timely safety topic. From practical tips to big-picture insights, each session delivers the knowledge you need to strengthen your safety program and achieve better results.

All webinars will be held from 9:30 AM - 11:00 AM unless otherwise noted.

Alongside these in-depth sessions, attendees will enjoy valuable networking, swapping insights, sharing challenges, and discussing real-world solutions with colleagues and peers. It's a day built for learning, connection, and leaving with actionable strategies you can put to work right away.
