

IMTA SAFETY PROFESSIONALS Conference

APRIL 10 - 11, 2024 | PRAIRIE MEADOWS CONFERENCE CENTER

The trucking industry strives to educate and inform every trucking related operation of specific safety information that directly impacts their operation, big or small; however, due to the nature of continual, uphill challenges when it comes to safety trends, staying informed and educated becomes timely and costly. Directly because of this, the Iowa Council of Safety Management continues to host their annual Safety Professionals Conference as an opportunity for attendees to learn valuable information and to gain ideas about how to stay current and improve safety in your company.

While this two-day conference provides the essential education to stay current in the industry, it is also a valuable opportunity to form relationships with others and use those relationships to exchange ideas and information to assist you in being more knowledgeable in your safety professional role.
